How to pay with a bank card online

To pay by bank card to you, it is necessary to prepare the following data, which you will need to enter in the payment system:

- name and surname of the cardholder;
- card number; • the period to which it is valid;
- a special security code (for example, Mastercard - CVC2, Visa - CVV2).

At the registration stage on the site where the purchase takes place, you must enter

- Your name and surname in strict accordance with how they are written on the map,
- a phone with an international year,
- e-mail.

Calculations by a bank card give a number of advantages in comparison with international transfers: there is no need to go through currency control procedures, etc.
